Globe and Mail Editorial Calls For Realistic Approach To Immigration

TORONTO.—A Globe and Mail editorial this week lauded Citizenship and Immigration Minister Richard Bells promise last Saturday that immigration would be increased to a rate equivalent of 1 per cent of Canada's population per year. This would mean the admission of 186,000 immigrants during the next year, and an increasing number in each succeeding year.

"But," asked the Globe, "from which parts of the world does Mr. Bell propose to import his hundreds of thousands of immigrants?" Europe, which Canada has chosen as her annual recruiting grounds for immigrants, has achieved tremendous economic growth and virtually full employment of late years, and her people no longer need to look to Canada and the United States for new opportunities.

"If Canada truly intends to achieve a large increase in immigration, we must approach the project realistically," said the editorial.

If Canada hopes to get a large number of immigrants to fill this rich and empty country, we must look to the overpopulated nations of the world, where sub-marginal standards of living are forcing people to look to new lands for new opportunities. "We must look to Asia and Africa," asserted the morning paper. "This will require a change in our attitude to the colored races, and a change in our method of treating immigrants."

Canada's now immigration regulation, which went into effect on February 1st, allows entry into this country people of any race or nationality who have the education training, skills or other special qualifications to enable them to fit into the Canadian economy, and the means of support to tide them over until they settle. But very few immigrants over the usual number have been arriving from Asia or Afica. The suspicion must therefore arise that the regulations are been interpreted too rigidly or the would-be immigrants have not been informed of the opportunities now open to them.

"We are being to selective in our requirements of Asian and African immigrants," commented the Globe. "If we are to acquire new citizens in the number suggested by Mr. Bell, if we are to shoulder our responsibility as an empty country in an overcrowded world, we must be prepared to accept the poor and the unskilled, and teach them here what they need to know."

To take realistic advantage of a source of immigration such as Hong Kong, jammed with over two million refugees from Communist China, Canada would have to be prepared to assist the newcomers in coming to Canada, and set up reception centres where they would be fed, clothed and taught the fundamentals of English before being sent out into the stream of Canadian life. Australia has made use of this system and Canada herself employed them during the great influx of Hungarian refugees.

Said the Globe and Mail, "Such change in our immigration policy would require a facing of the facts of immigration by Canadians, and an enhanced degree of humanity. But Canadians may not be so unwilling to admit large numbers of Chinese refugees for instance, as their government appears to fear.

Canada has the space and needs the people. It is time that we put a fuller meaning into our claim that this is one country in the world which recognizes no bars of race or color."

New Jersey Karateist Takes 1st Canadiam Championship

by KEI TSUMURA
(N.C. Correspondent)

TORONTO.—"Graceful as a ballet dancer and deadly as a rattle snake," commented one observer after watching Gary Alexander—a 3rd-dan Black Belt from the Isshando Karate Club of New Jersey—out-kick, out-chop and out-class all opponents to win the 1st Canadian Karate Open Championship last Saturday at the YMHA.

Quai Wong (4th Kyu, Green Belt) and Shane Higashi (1st Kyu, Brown Belt)—both from the Tsuruoka Karate Dojo of Toronto—took 2nd and 3rd respectively. Russ Hank, a 1st-dan Black Belter of the Wyandotte Michigan Karate Dojo, was awarded the best sportsman trophy.

This tournament, the brainchild of Mas Tsuruoka—"Father of Canadian Karate"—who acted as chief judge and chairman, initiated the first organized international Karate competition in North American history. Over 1400 enthusiastic fans saw some 40 Karate men from Canada and the United States battle for honors.

CEREMONIES

Opening ceremonies included the reading of wires and speeches of congratulations from Japanese Consul—Kazuhide Komura, Toronto Mayor—Nathan Philips, and 10-dan Supreme Instructor of the All Japan Karate-doh—Dr. Tsuyoshi Chitose.

For the first time in many years, spectators saw the Japanese flag displayed and heard the Japanese national anthem at a Canadian sporting event.

Interspersed between elimination bouts were many ballet-like Karate kata (pattern) demonstrations by the various senseis, women and children. Also included were deadly self-defense techniques demonstrated notably by Mr. and Mrs. Mas Tsuruoka. Dr. Ned Page, a Tsuruoka student, added some enlightening commentary.

BOARD BASHING

In contrast to the artistic kata performances, came the rugged board bashing—the most dramatic event being the spearing in two of a plank using finger tips only by Tsuruoka sensei. These board bashing displays are the

CONTEST RULES

In the contest all blows and kicks are pulled and stopped a couple inches from contact. The judges award points on the accuracy of the Karateka's aim to a vulnerable part of the body—a hypothetical "killing" blow.

The elimination bouts of this 1st Canadian tourney were one-blow matches, in which the combatant who got the first "killing" blow won. The final and semi-final bouts were a three-blow match, in which the combatant who got the first two "killing" blows won.

In a demonstration match against two opponents, Tsuruoka sensei committed mass murder. He "killed" each a couple dozen times.

TOURNAMENT

The preliminary bouts showed an obvious disunity in North American Karate groups—a natural state at this embryonic period. Differences in the quality of Black Belt degrees were rudely apparent. Many Canadian Green Belters, such as Quai Wong, easily defeated some of the American Black Belters. This peculiar situation might easily lead one to suspect the authen-

"Cheap Labor" Claim A Mistake Says Japanese

TOKYO. — Japanese workers today have it so much better than their prewar counterparts that "the contention that Japan's exports are supported by cheap labor is mistaken," says the government.

In a special report designed to correct what it called "misunderstanding and preconceived ideas" over Japanese wages, the government said conditions have so improved since the war that the living standard of Japanese workers now is almost comparable to standards in Britain, France, and West Germany.

The report was issued jointly by the Ministries of Labor and Foreign Affairs this month. The subject was so important that Premier Hayato Ikeda took several thousand copies with him for distribution on his current European tour.

The report noted that since 1952, the year Japanese levels recovered to the prewar level, worker earnings have increased at an average rate of 5 percent a year, resulting in a total increase of 45 percent by 1961.

This rate, says the report, "far surpasses the yearly rate of wage increase in the United States, the United Kingdom and many other West European countries with the exception of the Federal Republic of Germany."

Benefits Allowed

The comparison of wages by countries on the basis of official exchange rates—a widely employed method—is termed "obviously inadequate" because it fails to take into consideration "other factors such as the levels of national income, price structures, purchasing power, and traditional wage practices of the countries concerned."

Under the exchange rate comparison of workers in manufacturing industries in 1960, the average hourly earnings were 30 cents for Japan, $2.29 for the

WATERLOO, Ont.—Miss Leslie S. Fujita was valedictorian at the recently held commencement excercises held at Waterloo Collegiate.

Miss Fujita, was one of three students at the school to receive the $400 Ontario scholarship for obtaining more than 80 per cent on eight grade 13 papers written last June.

She also won a $250 dominion-provincial bursary, a University of Waterloo first-year scholarship of $471.50 and the Edgar W. McKengney prize for Spanish.

Health Official Speaks On Fluoridation Question

TORONTO.—On December 3rd, Toronto goes to the polls to decide, besides who will be our next mayor, whether we shall or shall not have fluoride in our water supply. Following is an article reprinted from "Health" magazine, with the permission of Dr. Gordon Bates, General Director, Health League of Canada, on some of the more pertinent facts about Fluoridation.

• • •

By DR. GORDON BATES

By virtue of the existence of a piece of extraordinary and in our opinion inept and foolish legislation the voters of Metropolitan Toronto and a number of other Ontario cities will be compelled to go to the polls on December 3rd to decide whether they shall or shall not fluoridate their water supply. The legisla-

haustive study by scientists. Scientific opinion all over North America is a unit in deciding that the adding to communual water supplies of a fluoride in the proportion of one part per million if it is consumed from birth will reduce dental caries (decay) by about two-thirds.

In various cities, of which Chicago and Philadelphia are the outstanding examples, water supplies have been fluoridated on the advice of the local health authorities without a vote of the people, and this is as it should be. If medical, dental and public health opinion is unanimous this should suffice. There is no need for a vote by the public to decide on the engineering details which go into the construction of a bridge. This is for the engineers.

A brief summary of the caries problem and the virtues of fluoridation may be desirable here.

Caries or dental decay is the

condition is largely responsible for the fact that 26,000,000 Americans have no teeth and since teeth are an essential part of the machinery of nutrition in humans and animals alike, this is a tragedy undreamed of by most of us until the connection of the element of fluorine with the development of hard decay-resistant teeth was discovered.

In 1899 Sir James Creighton Brown, a famous physiologist, advocated the administration of a form of fluoride to pregnant mothers in order to help in the development of sound teeth in their children. Little attention was paid to the significance of the advice of Sir James Creigton Brown until in the early years of this century a series of observations revealed the fact that in areas of the United States in which fluoride existed in the proportion of one part per million or more in the drinking

led to a desire for more specific statistical information. In the United States several cities commenced to add sodium fluoride to the water supply with a view to proving definately that this would decrease decay and increase the number of good teeth. In Newburgh, New York and Grand Rapids, Michigan such experiments were undertaken. Generally observations were undertaken in another city in which the fluorine content in water was low. For example, in the case of Newburgh the fluorine content was raised to one part in a million while in Kingston, New York, the control city, no fluorine was added. A similar experiment was begun in Canada in Brantford, Ont., using Sarnia as a control. The plan in all these cities was to review the situation at the end of ten years. In all cases the results were similar. At the end of a ten-year period the

素浪人 梅津長門

柴田錬三郎

正体

庄吉は、縁側に、胸へ手裏剣を刺されたまま、倒れていた。長門は、手早く、手裏剣を抜きとり、その片袖をちぎつて血をとめると脈をはかり、口中にたまつた血汐をはかせてから、そつと部屋へ運んだ。

「生命はとりとめる」

しばらく様子を見まもつていた長門が言うと、月江はようやく表情を動かして、ほつとして吐息した。

月江が、台所へ行つて、午食の仕度にとりかかつてから、ほんのわずかの間であつた。庄吉に、卵焼きが好きかきらいか、きくために、戻つて來てみると、もう縁側へ倒れていたのであつた。

「月江さん、あんたは、加平が、親切な男だつたと言つていたな?」

「はい」

「とんだくわせ者だつた」

「……」

月江は、身をふるわせると、がくりとうなだれた。

「信じられぬか?」

「は、はい——」

「しかし、あんたも、自分を殺そうとしたあの男の黒幕ぶりを、げんに、たつた今、見たばかりだ。長い年月、猫をかぶつていたと思うよりほかはあるまい。わたしも不覺だつた。化の皮をひんめくるのがおそすぎた。庄吉のやつ、とんだばつちりをうけた。が——これで、正体は判明したのだから、ナゾ解きの糸の先はつかんだことになる。まアあせらずに、解いていこう。百万両の寶を、かんたんに手に入れようというのがどだい虫のいい話なんだから——」

「わ、わたくし……わたくしのために、庄吉さんが、こ、こんな目におあいになつて——なんとおわびしていいか……」

「看病してやつて頂こう。なに、あんたに看病して頂けるのなら、庄吉のやつ、かえつて、このけがをうれしがるだろう」

「まァ」

月江は、顔をもたげて、長門を見やつたが、うらめしげな色は、瞳の奥にかすかにたたえただけだつた。

その白い顔を見かえして——似ているな、雪に。

と、長門はあらためて感じないではいられなかつた。

薄倖な面差といわねばなるまい。雪も、かつては、このように、冷たく、淋しいかげをひいていた。この娘もまた、ひとかけらの愛情もない手によつて育てられたのであろうか。喜怒哀樂の表現の術を知らぬようである。孤獨で生きて來た者のみがもつている悲しい無表情が、こうした場合、よりふかくあわれをそそるのであつた。

大年度は黒字經營へ

大陸家庭組合の總會で念願

△ト市の大陸家庭消費組合は去る十九日當會社交室で行なわれたが、出席者十數名のさびしさ。まず高島氏司會、大西理事長の挨拶があつたが今會計年度における帳尻が赤字となつていることの大きな原因の一つはカナダ弗低下によるものであることを指摘、しかし公認會計士は『組合の財政狀態は、新設備品の購入費支拂いなどを考慮して、決して憂慮すべきものはなく、まず健全な歩みと判斷し得るとの結論に達した』旨傳えたと報告した。さらに上田營業主任が補足的說明を加えて、今年度こそは黒字經營をかたく信じていたがカナダ弗の値下りによる主要食品の輸入で、思わぬ出費となり、殘念ながら會計報告通りの結果となつたが來年度はかならず組合員諸氏に滿足してもらえる決算報告が行なわれることを念願していると述べた。

△岸本氏の會務報告を認め會計報告について二、三の質問があつたのち、これも承認、グラージ建設の進行についての報告等があり、新理事選擧が開票されたところ、次の順位であげられ十二月三日夜八時、まだ任期のある理事も出席して當會社交室で互選會を行なうことになつている。

苦痛にゆがんだ顔

タンカー衝突の遺体引揚げ

【横濱時事通信】タンカーどうしの衝突炎上で空前の惨事を出した横濱港京濱運河の現場では一夜明けた十九日朝から行方不明となった三十四人（十八日中に五遺体を收容）の本格的捜査と事故原因の調査が再開された。

△遺体引き揚げ作業は午前六時から横濱海上保安部の巡視艇など七隻と出光興産がやとった漁船、サルベージ船二十数隻、潜水夫二十人で始められ夕刻までに二十八人の遺体が現場近くの海中で發見され、それぞれの身元がわかったが、遺体のほとんどがワイシャツ姿での顔も油ですすけ、苦痛にゆがんでいた。顔、胸に火傷を負い、頭髪がこげてチリチリになっている遺体もあった。

△引き揚げられた死体は次々に出光興産の埠頭に運ばれ検視が行なわれたが、この検視をもどかしそうに待っていた遺族たちはわっと泣き崩れながら遺体にすがっていた。遺体は次々と近くの觀音寺に安置されたが、まだ發見されない行方不明者の家族たちは岸壁に立って沖の捜査状況を見守っていた。

ワタルー高校で 藤田嬢の榮譽

【オ州ワタルー發】當市の高校卒業式がこのほど行われたが、當市在住藤田レスリー嬢（一七）が卒業生総代として謝辞を述べるという榮誉をうけた。同嬢は高校のメイヤーでもあった。また同嬢は二百五十弗の奨學金のほかワタルー大學入學奨學金四百七十一弗五十仙をもらい、スペイン語學でも保險會社の賞金をうけた。藤田佐太郎氏夫妻の息女である。

中共が突如停戰 平和解決申入れ

印度は慎重に成行き見守る

【北京發】北京人民日報（中共機關紙）は二十二日、中共・印度國境紛爭地帯に全面的な停戰命令を行ったと發表、十一月二十二日より中印國境一帯において中共軍は停戰することになったとしており、來る十二月一日から中共軍が占領している現戰線から二〇キロ（約一二哩半）後退すると述べ中共は自發的に停戰を行ったのは、速かに中印國境紛爭が平和的に解決することを希求するからであると報じた。

【ニューデリー發】ヒマラヤ前線における中共軍と印度軍の交戰は中止されたが、印度側は中共の國境紛爭解決申入れに應じる意思はないと消息筋はもらしており、ネール首相は『現在のところ、有効的な停戰は認められている』と議會で發表したが、印度政府がこれに對してどんな態度に出るかについては語っていない。むしろ印度は紛爭の小康を利用して軍力増強をはかることになろうといい、中共側の突如たる"停戰宣言"に對して双手をあげて安堵している様子はみられないとニューデリーからは報道されている。

【オタワ發】ディフエンベーカー首相は中共軍の後退申入れに拘らず、カナダは印度が自衛できるまでは予定通り、カナダの武器弾藥を印度向けに送ると今週發表した。

【ロンドン發】英政府筋では中印紛爭の停戰について、中共は印度に對して英米カナダ諸国が援助を與えており、そのテンポを急速化そうとする形勢をみてとり、このへんで停戰して後退するのが賢明と考えた結果ではないかと觀測している。

六十カ國以上が參加 儲かるモ市の世界博

◇四年後にモントリオールでひらかれる『國際博覧會』はカナダとしては最初の大規模な催し。すでにカナダのその一大フェアに參加申込みが數カ國から來ており、ニューヨーク博には出品せず、この博覧會に力を入れて參加したいという國もあって、前人氣は上々。日本はじめ東洋諸国も加わり、合計六十カ国以上が出展することになろう。

◇なにしろ會場の七百エーカー内の建物だけで約二億五千万弗もかかるが、フェアがすめばそれがショッピング・センターに早變りするプランである。テレフォン會社も電話線新設には三十カ月を要するといっているが、まず一万五千ラインの電話が必要。電力もこの會場内にサブ・ステーションを新設しなければ用をなさないという。

◇一日平均の入場者は最低見積り十万人。會場内にはたらく人員は一万五千以上。會期中に稼ぐ外貨は六億五千万弗とふんでおり、世界博は決して損のない催しであるということだ。

海水の眞水化研究

東京都が來年から「實用」へ

【東京發】東京の慢性的水不足に對して都首都整備局は現在日本では實驗的に行なわれているにすぎない海水の眞水化を、實用化できるかどうかについて、來年度二百五十万円の予算で旭化成に研究を委託することになった。海水の眞水化の研究はアメリカでは政府が音頭を取って大々的に行なわれ、一部では實用化している。また東南アジア、アフリカなどでも實用化しているが、日本では通産省、専賣公社や二、三のメーカーが實験室で行なっている程度。毎年繰返される東京の水キキンのたびに『海水の眞水化によって乗切れないか』という聲が出ており、同局でも實用化の研究にはいることになったもの。

日伊の友好深む

【東京時事通信】日伊両國は第二回池田・ファンファーニ首相會談後、要旨次のような共同聲明を發表した。

一、有効な管理と査察を伴う全面的軍縮及び核實驗停止協定が早急に結ばれることを促進する。

二、イタリーは日本の經濟協力開發機構への參加を支持する。

三、歐州共同市場が第三國に開放的で自由な協力の原則にもとづいて行動するようにとの日本の要望は共同市場の方針に合致する。

四、両国間の通商關係を無差別の原則による自由化促進政策を通じて擴大する可能性を検討した。

五、文化交流をいっそう緊密化する。

六、ファンファーニ首相は池田首相の訪日招待を快諾した。

人間的な生活へ！

ツガボーに與う

【ホープ發】アガシー監獄に向け行進するツガボー千三百余名がホープで寒さと雨のなかにテント生活をしているのを見るに見かねたセブンスデー・アドベンチスト教會は、ホープ付近にあるそのサマー・キャンプをツガボーのため解放、やっと住宅内に落ちつくことができ、人間らしい生活をとりもどした。このキャンプで生氣を養ったうえ、ツガボーは三十五マイルはなれたアガシーに行進をつづけることになっている。

最高功勞章渡す

熱帯病とたたかう細江氏に

【金澤發】"アマゾンのシュバイツァー"と呼ばれ、三十二年間もブラジル奥地で熱帯病とたたかってきた細江静男醫博（六二）＝ブラジル・サンパウロ市在住、ブラジル国籍＝がこのほど、金澤商工會議所で開かれた日本醫師會設立十五周年記念醫學大會で最高功勞章を受けた。武見日本醫師會會長から最高功勞章を手渡された細江博士は眞黒に日焼けした顔をほころばせ、長年の勞苦が實った喜びと感激にひたり、しばし壇上にたたずんでいた。武見會長は『醫師としての立場から日本の移民事業に最高の使命を果した』とその功績をたたえ、會場の約三百人の會員からは惜しみなく拍手がわいた。受章のあと細江博士は『私のような學問的功績の何もない者にこんな榮譽を贈ってくれる母国の皆さんの氣持がうれしい。日本でよい後繼者を見つけて私の仕事を續けさせたい』と話した。

成金者の息子たちは何れも精神的に薄弱

【モントリオール發】マギル大學の社會學科議長ウイリアム・エー・ウエストリー氏に今週同大學學生の家族百九を一九五五年から研究した結果を發表、その内容は大きな話題を投げている。要點は勞働者上りで、中産階級にのしあがった父親を持つ家族の男の子は、ほとんど例外なく"精神的薄弱者"であるというのである。

△父親が家の掃除をしたり皿洗いをする家庭の男子は"混亂した頭"の持主であり、母親が家庭のことをしないでいるのも同様の結果を生じる。しかし母親がいわゆる"男勝り"の家庭はそうではない。ところがこのような家庭に住む女の子はこれらに少しも影響をうけず、順調な心の持主である。

△つまり貧乏人から中流階級に父が成功し、また母親が上流階級から中流階級にさがってきた者の家庭の男の子はいずれも『精神的に混亂した』者となっているという。

日本人の觀光旅行

明秋以降に許可

【東京發】大藏省は貿易自由化の促進と並行して明年四月をメドに海外渡航、とくに觀光旅行の自由化を検討していたが、好轉した國際收支の見通しもなお楽観を許さないという見地から、海外渡航の制限緩和を明年秋以降に延期する方針を固めた。現行の制限措置によると為替銀行の許可で自由に渡航出來るのは貿易を目的としたものだけで、貿易外の業務渡航は大藏省の審査した上、一人當りの總費一日最高三十五ドルという制限が付されている。また觀光目的の渡航はすべて許可しない方針である。

日本ラグビー團

三月に訪加

【晩市發】全日本ラグビー選手團が來春三月、ビーシー州に遠征するはず。日本選手十五名は約二、三週間滯在、その間州内各ラグビーチームと對戰するが、一九六四年にはカナダの選拔團が東京で各國と對戰する招待をうけることになるもよう。

. . . A SANSEI GAL SPEAKS

On Hockey

By MARIE YAMASHITA

". . . And the cheering crowd rose to its feet as Dufferin Cleaners raced towards the empty goal to clinch their first win of the season."

However, the throng that stamped and voiced their approval was very small. Perhaps the finesse and plays of the teams lack the lustre of their counterparts in the National Hockey League, but nevertheless the enthusiasm and desire is in each of our players.

Our own "N.H.L." (Nisei Hockey League) has six outstanding teams all backed by some of our well known citizens—Mickey S. Sato, Yamada Studio, Stadium Garage, Main Auto Body, Japan Camera Centre, and Dufferin Cleaners.

Not everyone can be a winner. There has to be both "the top of the pile" and "the bottom." Showing a desire to vacate the "bottom of the pile", Dufferin Cleaners came up with more persistance and drive in last week's game to overcome the experience of an established club such as Mickey Sato.

Could it be that the color of a team's sweater can influence the thinking of the various player? For example the Boston Bruins of the National Hockey League have been sitting in the cellar for quite some time and effigies of their coach, Phil Watson, were seen swinging in the air last weekend and ultimately led to his dismissal this week.

Such drastic measures are not quite called for as far as Dufferin Cleaners are concerned (Dufferin also sports, yellow, black and white colors) but perhaps, at long last, the tide is changing for our cellar dwellers.

* * *

Chicago is noted for having the most enthusiastic and noisy hockey fans in the N.H.L. Therefore, if a wire were sent to the President of their Hockey Fans Association, (if such an animal exists) we might be able to obtain a small bottle of "down-and-out CHEER", for each of our Nisei hockey fans. We need more fans, noisy fans, enthusiastic fans. We need fans, period!

Maybe you want to view the scene and see what the latest hairdo and hemline length is, or find out the current telephone numbers; maybe you want to see the game or be seen at the game because it is the thing to do; or perhaps you are just a FAN! Hurray! But, whatever your reason for joining me at George Bell Arena, come this Sunday for some exciting, fast games of our National sport, played by our Nisei Hockey League.

TORONTO.—Dufferin Cleaners posted their initial win of the season downing Mickey Sato 5-3 in the first game of last Sunday's action in the Nisei Hockey League. In the middle game, Main Auto Body and Japan Camera battled to a 6-6 draw, while Stadium Garage posted a 4-2 win over Yamada Studio to close out the afternoon.

DUFFERIN CLEANERS vs MICKEY SATO

Led by the three-goal performance of young Tom Orida and supported by the return of Al Masukawa and the addition of Glen Katsuyama, Dufferin Cleaners finally registered a win after dropping their first three games.

Katsuyama and Jim Ebata tallied the other Dufferin markers, with Ebata's goal coming with the Sato goal empty in favour of an extra attacker in the last minute of play. Gerry Oye played a strong game picking up two assists.

Sam Tanaka, Tak Tanaka and Satch Fujimoto lit the lamp for the linstranceemen. Lefty Sasaki had two assists.

* * *

JAPAN CAMERA vs MAIN AUTO BODY

Japan Camera blew a 6-3 lead with less than five minutes left in the game and had to settle for a 6-6 tie with league-leading Main Auto Body. As a result of a unusually porous Main defence the Camera shop were able to register a substantial lead on two goals by Dave Mitobe, and singles by Benny Murata, Pete Inouye, Archie Matsumoto and Harry Murakami.

Dave Ishikawa, Kei Higashi, Ted Nakamura, Herb Ashizawa, Roy Kobayashi and Gen Hamada found the mark for the eastend Garage, with Hamada's goal earning them the tie.

* * *

STADIUM GARAGE vs YAMADA STUDIO

Stadium Garage playing a strong skating and checking game completely dominated the play to defeat Yamada Studio 4-2 in the nightcap contest. Bob Masukawa and George Shimono gave the Garage a 2-0 lead early in the game and this lead stood up until the third period when a temporary let-down allowed the Photographers to tie the game on goals by Mel Tsuji and Bob Nagasaki. However, Stadium got back on the right beam to take the lead on a goal by Major Fukumoto and then iced the game on Chuck Saito's marker in the final minute.

Fukumoto was without a doubt the best man on the ice, with Ron Yoshiki and Bob Masukawa playing strong games. Mel Tsuji as usual was best for the losers.

Wakabayashi Brothers Top Attraction in Junior 'B' Loop

CHATHAM, Ont. — Possibly the biggest sports attraction in Southwestern Ontario these days are a couple of Sansei hockey stars—Mel and Herb Wakabayashi. The fabulous Wakabayashi's have dominated not only the sports page of the Chatham Daily News, but also the Border Cities Junior "B" Hockey League, as they toil the ice lanes for the Chatham Junior Maroons.

Mel, 19, last year's league scoring champion leads the race again this term with an astonishing 36 points in nine games. Younger brother Herb, 17, is second with 25 points.

Proving without a doubt that they are the most devastating duo to hit the league the Wakabayashis last weekend capped off their biggest performance of the season as they each tallied for four goals to spark the Junior Maroons into first place. Mel, who plans to attend the University of Michigan next year on a hockey scholarship, added four assists and brought roars from the crowd each time he touched the puck.

The brothers each scored a hat trick in the first period as the Maroons shellacked Detroit Junior Red Wings 13-4.

The pair need no introduction to local sporting fans. They have been outstanding in a number of sports in their minor athletic careers. In this year's Toronto JCCA Labour Day softball tournament in the Queen City, Mel was voted the all-star catcher as he and brothers Herb and Den stood out with the Chatham Niseis who lost to Chicago La Salle Photo in the final game of the tourney.

This season the two are becoming even greater with their performances with the Chatham Juniors.

"It is worth more than the admission price to see the Wakabayashis perform alone," said a local sports writer. "It remains to be seen if the opposition will be able to hold Mel pointless in any games this season. It would seem impossible to even think of a player going through a season scoring at least one point a game, but the way he has started, it appears very possible."

Although some of the other league teams might not be too happy to see him skate on the ice against them, Mel, is probably the greatest single attraction in the league.

It is great to have players of the Wakabayashi calibre on your club, but a king-size headache for opposing net-minders who have to face them.

One consolation a goalie has is that he won't be the first to allow them a point feast, nor will he probably be the last.

If the Junior Maroons are successful this season, and there appears to be no reason why they won't be, a great deal of credit will have to go towards the Wakabayashi brothers.

ticity of some of their Black Belt degrees. However, others showed excellent techniques.

Also disturbing was the odd colors and shades of some of the belts—such as fire-engine red, complete with blazing lapels and cuffs.

Alexander vs Higashi

In the semi-finals, tall Gary Alexander, whose 3-dan Black Belt was the highest degree in the tournament, faced Brown Belter, Shane Higashi of Toronto. Alexander, wearing a dazzling black top with white pants, went through various stances of his Okinawa school style—like standing still, staring away from his opponent, one arm pointed out like a traffic cop and his other hand flapping over the rear of his head looking for all the world like Indian war-feathers. He scored the first point with a clean kick to the solar plexus.

Higashi, sweating visibly, fought back and scored with an identical kick to the solar plexus. As they speared, growled and threw kicks at each other in what was probably the most important event of the tournament, Alexander came through with a convincing knife to the neck to win.

But this bout proved that Shane Higashi is the Karate man to watch for in the future.

Higashi vs Hank

To qualify for third position, Brown Belter, Shane Higashi met 1st-dan Black Belter, Russ Hank.

Higashi scored with a beautiful side snap kick. But Hank—whose little owl-like hoots in the tense silence of the hall engendered a child to answer back with a similar tiny, "hoo hoo,"—tied up the score with a swift kick to the solar plexus. Higashi lashed back with a knife hand to the arm pit to win.

Alexander vs Wong

This final bout looked like a Mutt and Jeff comic strip come to life. Alexander, who is 6-feet-plus, scored fast against tiny Green Belter, Quai Wong—who looked like he weighed no more 100 pounds on a 5-feet frame—with a knife hand to the neck. But Wong, obviously the crowd's favorite, surprised everyone by scoring a point with a counter attack punch under the arm.

Finally, Alexander scored a beautiful kick to the kidney to become the champion. All through the tournament, winner Gary Alexander simply outclassed everyone. A worthy champion.

Someone in the crowd muttered something about how Alexander could probably beat Mas Tsuruoka. It was a good joke, anyway.

FUTURE

"This championship", says Tsuruoka sensei, "proved beyond a doubt that the different Karate styles can be instilled to make a successful tournament."

The All-Japan Karate-doh Association, in which the Tsuruoka dojo is an affiliate member, has awarded Mas Tsuruoka the degree of 5th-dan Black Belt.

Today, he and his top men are competing in a tournament in Madison Square Garden in New York. Watch for him to appear on CTV's "To Tell The Truth" on Monday, Dec. 3rd. Channel 9 in the Toronto area.

Fluoridation. . .

water from birth was close to seventy per cent. There was no change in the control city.

If caries is a menace to health then this was a magnificent achievement. It would appear that a reduction in caries means not only saving teeth which otherwise would be extracted but also the diminishing of a serious health hazard.

In 1909 a British surgeon lecturing at McGill University pointed out that infection generally originating in carious teeth could mean the distribution of septic material through the blood stream, causing damage in any part of the body. Disability and even death may ensue. In view of this there was a growing opinion among medical, dental and health authorities that the fluoridation of water supplies as a means of preventing ill health ranked with vaccination against smallpox and pasteurization of milk, as one of the greatest discoveries in the history of preventive medicine.

Of course as in the case of every great discovery in the field of prevention there were objections. All sorts of absurd arguments were submitted as to why commercial water should not be fluoridated. These ranged all the way from statements to the effect that fluoridation would spoil the taste of tea to assertions that since fluorine is tasteless it might readily be used by foreign agents to poison whole populations. Other equally absurd arguments were that fluorine would increase cancer and heart disease rates or induce the softening of the brain—and last of all that fluoridation by a health authority constituted a violation of the principles of human liberty.

Since fluoridation is a natural constituent of water in varying quantities all over the world, this latter argument is just as hard to understand as all of the other arguments of the vigorous and noisy group who have come to be known as the father of fluoridation in Canada and a man whose name will never be forgotten in the annal of public health, invented a new disease, fluorophobia, from which he said

the leaders of this curious irrational and bizarre movement suffered.

At any rate through the fanatical efforts of such people Toronto and other Ontario cities on the 3rd of December will be compelled to vote for or against fluoridation instead of leaving the matter to the decisions of health authorities. On the proside are lined up virtually every health officer in North America, the American and Canadian Public Health Association, the Medical Associations, the Dental Associations and in effect every competent scientific society on this continent. On the other side a hard core of fanatics to whom may well be applied the poetic statement of Alexander Pope that "a little learning is a dangerous thing", followed doubtless by a small army of people who do not yet believe in the sincerity and public spirit of their own doctors, dentists and public health officials. A vote for fluoridation on December 3rd will be a vote for the health of this and future generations.

Commenting on the above article by Dr. Bates, Ed Hisaki, Nisei Dental student at the University of Toronto, whose article on Fluoridation appeared in the NC last January, had this to say:

"The majority of us in the Dental and Medical profession fully endorse Fluoridation. These anti-fluoridationists have absolutely no valid scientific basis for their opposition."

Mr. Hisaki termed as "diplorable" the present situation of widespread dental caries and diseases.

"Because of the limited personel that we have available to effectively cope with this diplorable situation, it is my contention that Preventive Dentistry by the fluoridation of water supplies is by far the best solution to our problem," he said.

"If fluoridation of our water supplies is rejected on December 3, another generation of children will be deprived of its beneficial effect. I sincerely hope that this will not happen," stated Mr. Hisaki.

National JCCA Discuss Reports At Meeting

TORONTO. — The monthly meeting of the National JCCA was held on Wed., Nov. 21 at the office. Reports were received from the various committees—500 Club, Immigration, Welfare, Human Rights, Organizations and History,—as well as from the corresponding secretary and the treasurer. Much time was allocated to discussion arising from these reports and preparations were made to take the necessary action in each case.

The 500 Club Board of Directors and the National JCCA special committee for the 500 Club met prior to the NJCCA meeting. A progress report arising from this meeting will be released next week.

United States, 75 cents for Britain, and 62 cents for West Germany.

The report says Japanese workers enjoyed such fringe benefits as year-end bonuses "which in total roughly amount to an equivalent of three months' wages," meals, commuting fare, dormitories and company housing, medical service, and general retirement allowances.

Industries Vary

Wages in such modern, large-scale industries as steel and shipbuilding average 30,000 yen ($83.33) to 35,000 yen ($97.30) a month "or about the same level as in Italy or France even when using the exchange rate comparison method," the report says.

Turning to wages in export industries, it adds:

"It is found that the average wage levels in those industries producing commodities which form the main item of Japanese exports to the United States, Canada and Western Europe are not uniform but differ from industry to industry. . . ."

In contrast to the steel and shipbuilding industries, the average monthly wage in the textile, toy, and porcelain industries was given at 15,000 yen ($41.66).

Singling out the textile industry, the report notes that the low scale was because a large percent of the workers are women with short service time.
